EDUCATION

Shiv Nadar University Chennai - B.Tech in Computer Science [IoT] 2022-2026

EXPERIENCE

ServiceNow Platform Developer Intern - Sandeza Systems Pvt Ltd [Jun 2025 - Jul 2025]

- Automated internal workflows with ServiceNow APIs, Script Includes, and GlideRecord.
- Engineered REST-based integrations to synchronize data reliably across instances.

Technical Business Data Analyst Intern - Plugzmart [May 2024 - Jun 2024]

- Integrated embedded C and Python modules to control EV chargers via UART / Modbus.
- Analyzed live IoT telemetry data streams to identify and resolve performance bottlenecks.

KEY PROJECTS

1. Olist E-Commerce Analytics Platform

- End-to-end data pipeline processing 110K+ records with SQL, Python, Streamlit, and Power BI.
- Resolved merge bug inflating metrics by 400%; implemented K-Means RFM segmentation.

2. WearGAN: AI-Powered Fashion Synthesis

- Developed Conditional GAN with CLIP conditioning in PyTorch for text-to-image synthesis.

3. Tessera: Multi-Agent Recovery System

- Engineered autonomous agentic AI system for self-healing workflow automation.

CORE SKILLS

Python, SQL, Analytics, Management, Pandas, NumPy, Scikit-learn, PyTorch, MySQL, REST APIs

Certifications: Google Cloud Data Analytics Certificate, NPTEL Big Data Computing
